

Free motion elbow supports

Designed to prevent and reduce muscle tension and musculoskeletal disorders in the upper body (shoulders, neck, back) and promotes good posture.

Ideal for precision and/or repetitive work!

Support that follows you: Tension adjustment to naturally mimic arm movements, it remains in a fixed position when not in use.

The effectiveness of the mobile elbow support has been proven with clinical studies by dental hygienists in real work environments. *

* IRSST, UQAM et l'ASSTSAS
Designed and made in Canada.
Our products are recognized by the Association pour la Santé et Sécurité du Travail
Secteur des Affaires Sociales (ASSTSAS) and the Association des Chirurgiens Dentistes du Québec (ACDQ).

- **Soft cushion:** For elbow comfort and vibration absorption (ultrasound, polishing devices, drills, and so on)
- **Mobility:** Mechanism allows a wide range of movements.
- **Personalized adjustment:** Adjustable cushion height: graduated cushion rod to allow multiple users.
- **Adjustable tension:** Precise adjustment to keep the arms closer to the body.
- **Easy maintenance:** Easy to clean, designed to prevent trapping bacteria.
- **Durability:** Solid construction and disinfectant resistant.
