

Saddle chair PS3

The shape of the seat provides stability, avoiding sliding forward during the day and preventing compression of the pelvic floor.

Designed for precision work in restricted areas, it will follow all of your movements, especially allowing the sitting-standing position.

The lumbar support shape precisely follows the natural curve of the back and thus helps to keep the back straight.

This unique molded foam shape provides incomparable comfort. The universal design is made for both men and women.

Our products are recognized by the Association pour la Santé et Sécurité du Travail Secteur des Affaires Sociales (ASSTSAS) and the Association des Chirurgiens Dentistes du Québec (ACDQ). Designed and made in Canada. The chairs components meet BIFMA standards, corresponding to tests of resistance and durability.

- **Back support:** Adjustable height and angulation, to support the lumbar region, embracing the hollow of the back.
- **Seat comfort:** Adjustable height and angulation, allows to get closer to the task and to keep the pelvis straight.
- **Seat dimensions** (width, depth): 15 x 14 in (38 x 35.5 cm)
- **Durable base:** Five-legged base in black nylon resin for good stability, 22 in (56 cm) diameter.
